## AGUINALDO IS CAUGHT

Funston Captures the Filipino Leader after a Daring Risk.

### IS TAKEN TO MANILA

This Place Funston Again a Hero of the War. The End of the War is Now Regarded as Near at Hand in Philippines.

Manila, March 28.—General Frederick Funston's daring project for the capture of Aguinaldo in his hiding place in the province of Isabella, island of Luzon, has proved completely successful. Aguinaldo was captured there on March 23.

The United States gunboat Vicksburg, Commander E. B. Barry, with General Funston and Aguinaldo on board, arrived here yesterday morning. The province of Isabella, where the capture of Aguinaldo occurred, is on the island of Luzon, about 200 miles north-east of Manila, and about 75 miles north of Balero, the eastern coast, which place was made memorable by the capture of

COLONEL FRED FUNSTON.

Lieutenant Gilmore and his party from the gunboat Yorktown in April, 1899. Isabella province is wild and mountainous, especially along the coast, where the high range known as the Grand Cordilleras Orientales, extends for 100 miles or more from north to south. The highest point of the range being but a few miles from the shore.

Rugged trails, in some places but a foot or two in width, lead across the mountains frequently crossed by rushing streams and where these overflow their banks the trails were waist deep in mud. It was to this uninviting district that General Funston and his small band went a short time ago. It was a part of the island that has never been visited by American troops.

General Funston's plans as outlined a few days ago, were to make the trip accompanied by Surgeon Harris, Capt. Newton of the Thirty-fourth infantry, Lieutenant Admire of the Twenty-second infantry, Lieutenant Mitchell of the Fortieth infantry, six veteran scouts and a company of native scouts, all picked men. They were to be landed by the gunboat Vicksburg on a remote beach north of Bales, and were to proceed overland guided by a former officer of Aguinaldo who had betrayed to Funston the Filipino leader's abode. To deceive the enemy it was arranged that Aguinaldo's representative who had given the information to the Americans should lead the native scouts and assume the character of insurgents still loyal to the rebel cause.

### LANDING OF AGUINALDO.

The Insurgent Leader was Cheerful and Lunched With Army Officers.

Manila, March 28.—Aguinaldo, who was captured by General Funston and brought to Manila on the United States gunboat Vicksburg, was brought ashore at 3:10 o'clock yesterday afternoon and taken before General MacArthur at the Malacanau palace. He talked freely,

EMILIO AGUINALDO.

but seemed ignorant concerning recent events. He appeared to be in good health and was even cheerful. He lunched with the officers of General

MacArthur's staff, and was then escorted to the American street jail.

Aguinaldo's capture was attended with considerable difficulty, an insurgent major being killed at the time of the event. Twenty rifles and a number of important papers were captured.

### News of Capture from MacArthur.

Washington, March 28.—Press reports of the capture of Aguinaldo by General Funston were confirmed by General MacArthur at Manila in following cablegram, to Adjutant General Corbin: "General Funston has just returned from an expedition to Palanan, province of Isabella, where he captured Aguinaldo, who is now in my possession at Malacanau. Particulars later."

Malacanau is MacArthur's headquarters and residence in Manila.

### Reney Reports the Capture.

Washington, March 28.—Admiral Reney at Manila cabled the navy department as follows:

"The Vicksburg which sailed March 8 with General Funston and 83 Macabees aboard on an expedition to capture Aguinaldo returned Wednesday. Aguinaldo and three staff officers were captured and delivered to the custody of General MacArthur."

### Funston's Home Celebrating

Iola, Kas., March 28.—Business in Iola, the home of Funston, is practically suspended, while citizens give vent to the enthusiasm they felt over the Kansas soldier's feat.

### TEXAS LEGISLATURE.

Emergency Appropriation Bill Finally Passed by the House.

Austin, March 28.—The proposition for the house to recall from the senate the resolution providing for sine die adjournment on April 9 for the purpose of undoing it still hangs fire. It was under discussion yesterday, but resolution time expired without a vote being reached. The speaker indicated that he does not think the resolution in proper form; that the legislature in order to rescind its action must repeal the resolution heretofore passed.

The house spent a great deal of time yesterday on the last few pages of the emergency appropriation, not making the rapid pace that it made when it first tackled the bill. The bill was, however, finally passed.

The house concurred in the senate amendment to the mineral survey bill by a vote sufficient to give it immediate effect.

The railroad commission appropriation went through the house as reported by the finance committee. The house in the evening took up the report of the committee which investigated matters concerning the breaking of the house quorum on Thursday night last and adopted it.

The senate finally passed its full term appropriation bill and expects to get it over to the house in a jiffy and put it up to the house to do something concerning it before adjournment. The figures have not been straightened out and the total of the bill can not be ascertained.

The senate finally passed Mr. Kyle's bill for the reorganization of the Ranger force without amendment.

Mr. Thurmond made a determined effort to get an appropriation of \$5000 in the appropriation bill to equip the Beeville experiment station, but was unsuccessful.

Many local bills were passed by both houses.

### Notice of Special Session.

Austin, March 28.—The governor this morning sent a letter to Speaker Prince of the house telling him that if the legislature adjourns April 9 he would reconvene it in August to pass a two-year appropriation bill and to redistrict the state.

### School Trustees Term Extended.

Austin, March 28.—The senate yesterday morning passed the joint resolution making the terms of office of school trustees six years, also passed the house bill providing for the reorganization of the ranger forces.

### More Census Enumerators Arrested.

Washington, March 28.—Director Merriam of the census bureau has received information of the arrest of three additional persons in St. Mary's county, who, it is alleged, are implicated in the census frauds recently discovered in that county. Two of these persons, Joseph Ching, a lawyer, of Leonardtown, and a former enumerator named Goyter, were brought to Baltimore. The charge against the former is that of aiding and abetting enumerators to make fictitious returns of the population while that against the latter is padding the returns.

### Saved from an Illinois Mob.

Galesburg, March 28.—A mob of 500 or more gathered here Wednesday night bent upon lynching Ed Jackson, a negro, who killed Engineer Charles H. Rowe Tuesday night. The mob marched on the jail in a body. News of its coming reached Sheriff Matthews and he smuggled Jackson out of jail into a carriage which was driven to Monmouth. A committee from the mob searched the jail and finding Jackson gone the crowd dispersed.

## HOME FROM THE PHILIPPINES.

Mr. R. B. Deason of Famous Texas Thirty Third Regiment Has Returned from the War.

Slender and lithe and swarthy with a traveled and more thoughtful expression, Robt. B. Deason showed up on the streets of Bryan Tuesday morning fresh from the land of the wily Aguinaldo, fully satisfied with the experience of his trip and hard service under Old Glory across the seas, and glad to get home once more. Mr. Deason, who was raised in Brazos county, enlisted with the Thirty-third regiment at San Antonio July 26, 1899, under Col. Luther R. Hare, now brigadier general of volunteers and a major in the regular army. The troops landed at Manila Oct. 27, 1899, and Mr. Deason saw hard and continuous service until his departure from Luzon. He sailed Jan. 23, in advance of his regiment, owing to ill health. When he left the United States his weight was 152 pounds and when he embarked to return home he weighed 98 pounds. This has been increased until his present weight is 137 and his health is greatly improving. He was in eight different battles and escaped without injury. He was a member of the expedition which rescued Lieutenant Gilmore, and also of expeditions which chased Aguinaldo.

Mr. Deason says the Thirty-third made two major generals of brigadier generals and one brigadier general of a colonel, and the records bear the statement out, as all who read the papers are aware. The regiment sailed from San Francisco about 1300 strong and is now en route home on the transport Logan with about 700 men.

Mr. Deason says the war is by no means at an end, but conditions are much improved, yet there is no telling how long the conflict may last. Industrial development is slow, the natives, despite the fertility of their soil, caring nothing for anything more than a subsistence which is mostly of rice and fish.

During the rainy season and on expeditions food for the troops was

exceedingly hard to obtain and on one occasion the Colonel traded the eagles from his shoulders for salt. At one time the Thirty-third was 300 miles from Manila in the mountains of North Luzon. Mr. Deason in his travels learned to speak some six or seven tribal dialects, and had a splendid opportunity to study the country and the people. He says the resources of the country are boundless and it will be profitable whenever the United States is able to maintain peaceable possession of it.

Mr. Deason wrote the Eagle many interesting letters during his absence and sent us a fine box of cigars which were highly appreciated. He says he has enough of soldiering and has come home to stay. He will go to Ft. Sam Houston for final discharge about April 15.

### Death of Mrs. McNeely.

Mrs. Mary K. McNeely, wife of D. L. McNeely, died at her home in Calvert Wednesday March 27, at 4:30 p. m., and the remains were brought here for interment yesterday afternoon.

Mrs. McNeely was born at Ashville, N. C., April 2, 1857, and was in her 54th year. She came with her husband to Texas fifteen years ago and the family resided in Bryan until about three years ago when they moved to Calvert. Mrs. McNeely leaves a husband and two children, Mrs. J. B. Stevenson of Bryan, Frank McNeely of Calvert, and a brother, Charlie Erwin of Giddings, besides other relatives and many friends. She was a member of the Presbyterian church and lived an exemplary christian life.

The remains were brought to Bryan by the afternoon train yesterday, accompanied by the family, and the funeral took place from the depot. The service was conducted by Rev. Mr. Thompson of Calvert and Dr. J. D. West of this city.

### TAFT AND THE SULTAN.

Commission Promises Not to Disturb the Customs and Religion.

Jolo, Island of Sulu, March 28.—The commission was heartily received at the headquarters of the sultan and the residences of many of the people being decorated with the stars and stripes floating throughout the town, while thousands of firecrackers exploded in all directions. Commissioner Taft explained there was no disposition on the part of the commission to interfere with the administration of the sultan's affairs or habits, customs and religion of the people. He said that the only motive of the governing commission was the prospective prosperity and happiness of the people of the Sulu islands and that the people of the United States expected the treaty to be strictly observed.

The sultan thanked Commissioner Taft and spoke proudly of the cable and other improvements introduced by the Americans, adding that his best friends were the military officials and he expected to be able to abide by the decision of the commissioners and to follow their advice. His majesty then inspected the ship and during the afternoon received the army officials and commission at his headquarters. Native sports followed, which were witnessed by the commissioners and others.

### NEW TRIAL GRANTED.

Powers and Howard Cases Reversed by Court of Appeals of Kentucky

Frankfort, March 28.—The court of appeals has granted new trials to Caleb Powers and James Howard, Goebel assassination suspects. The reversal in the Howard case was by the whole court. In the Powers case Judges Hobson, Poynter and White dissented.

The decision in the Powers' case holds the Taylor pardon not valid, and holds the indictment good, but reverses and orders a new trial on the ground of erroneous instruction to the jury and the admission of incompetent testimony.

The Howard case was reversed because of erroneous instructions, incompetent evidence admitted in the trial and on minor points.

### Republicans Agree on Candidates.

Lincoln, Neb., March 28.—The Republican caucus has nominated J. P. Millard of Omaha for the long term and Governor Charles H. Dietrich for the short term for United States senators. Prior to this Rosewater and D. E. Thompson, the two leading candidates, withdrew and the two men nominated were named as a compromise.

### New Senators from Nebraska.

Lincoln, March 28.—J. H. Millard and C. H. Dietrich, nominated by the Republican caucus for the short and long term in the United States senate, were elected by joint session at noon today. Both new senators are bankers and neither has been prominent in politics until the last six months.

### SOURCE OF SATISFACTION

Officials Believe the End of the War Is Close at Hand.

Washington, March 28.—Official news of the capture of Aguinaldo had not reached the war department up to a late hour last night. The president had retired before the Associated Press bulletin arrived and he heard the news for the first time this morning.

The capture of Aguinaldo is a source of great satisfaction to the president and his advisers. Coming so soon after the surrenders reported by General MacArthur of prominent Filipino officers and the successful establishment of civil local government by the Taft commission, they feel that the end of the rebellion in the islands is near at hand. With the expected collapse of further opposition which it is confidently believed will follow, the hope is expressed that it will not be necessary to maintain such a large standing army in the islands as has been contemplated.

The disposition of Aguinaldo is an interesting one for the administration to determine. The possibility of his capture at any time always had been kept in view and that of his future had been a matter of informal discussion by the officials here. It is not believed, however, that any definite line of action was ever determined upon in regard to the matter. The attitude of the government for a long time past has been one of comparative indifference to Aguinaldo's capture, it having been determined to crush the rebellion without regard to his whereabouts. His recent activity in directing the course of operations against the American forces probably brought about the recent change in this attitude.

As the leader of an insurrection against the United States government, Aguinaldo may be tried and executed, a lesser punishment meted to him by executive clemency, or complete amnesties extended. While the question of punishment rests with the military authorities it is believed the president will make the matter one for determination primarily by the authorities here.

### COURTESY OF RUSSIANS.

Americans Moved by the Kindness of Czar's Troops to the Dead.

Pekin, March 28.—The bodies of six American marines who were killed during the siege of the legations and buried in the Russian legation, were removed Wednesday for shipment to the United States. In addition to the American troops in Pekin, the Monocacy, Commander F. M. Wise, sent a detachment of marines to be present at the disinterment.

The courtesy of the Russians deeply moved all the Americans. Two Russian companies participated in all the ceremonies. The Russians guarded the disinterred bodies all night and rendered all the Russian military honors to the dead.

General Chaffee wrote to M. DeGiers an expression of his feelings of the officers and men of the entire command. M. DeGiers, referring to the incident said: "It was only natural. The Russians and Americans fought side by side during the siege and were virtually brothers."

It is recalled that in the case of an American marine who had done duty beside a Russian soldier, and who was buried without a coffin, the Russian, with tears streaming down his face, leaped into the grave and arranged the earth as a rest for the head. Those who were present say it was a most affecting scene.

### APPEAL TO FARMERS.

President Peters Urges a Reduction in Cotton Acreage.

Waco, Tex., March 28.—Colonel E. S. Peters, president of the Texas Cotton Growers' Protective association, has sent out the following call:

"At the earnest request of Hon. Harvie Jordan of Georgia, president of the Southern Cotton Growers' Protective association, and prominent farmers in this state, I issue this call for the farmers in every county in this state to meet at their respective courthouses on the first Saturday in April to consider the advisability of reducing their cotton acreage for this year, and also to discuss ways and means for protecting the price of our staple from present manipulations. If the cotton acreage of the south be increased, the price for the staple will go down below 6 cents next fall, which will result in the greatest financial calamity that has befallen the southern farmers in years. Now is the time for action, because the price of the staple next season, will be fixed according to the acreage planted this spring."

### Officer and a Negro Killed.

Columbus, Ga., March 28.—Jim Little, a negro man, shot and instantly killed Officer W. S. Elliott and was himself shot and killed by Officer Woods. Little had been threatening to kill himself and went to carry out his threat. Officers were summoned and as Elliott stepped in the door he was shot in the breast. Wood, who was following, shot the negro three times, killing him.

### Believe Cubans Will Accept.

Washington, March 28.—Representative Cesarman Warner of Illinois, who has just returned from an extended tour through Cuba, believes the constitutional convention will accept the Platt amendments.

### A Canning Plant.

Hico, Tex., March 28.—The citizens held a meeting here and agreed to build a canning factory at once and a committee was appointed to solicit subscriptions to stock.

## AGUINALDO'S CAPTURE

The News Received at Washington  
With Great Satisfaction.

## FUNSTON IS PRAISED

Officials Cautious as to Expressing an  
Opinion as to What Should Be  
Done With the Insurgent  
Chief of the Filipinos.

Washington, March 28.—The news of Aguinaldo's capture by General Funston is received everywhere in official circles with intense satisfaction, but perhaps no where did it create more satisfaction than at the White House. The first official news to reach the executive mansion was General MacArthur's dispatch announcing the capture which came about midnight Wednesday night, and then came Admiral Remy's cablegram and the press dispatches.

It has been the opinion of military authorities for a long time that Aguinaldo was doing more than all the other agencies combined to keep the rebellion in the Philippines alive and every energy was directed to compass his capture. It is rather a remarkable tribute to the daring and resourcefulness of Funston that long before he made the attempt he was selected by the authorities here as the officer who might accomplish it. It was the intention of Funston some time ago to return to the United States, but by the direction of the war department he was detained in the Philippines in the hope of just such a contingency as did arise and should give him an opportunity to test his prowess.

Both the president and the war department was fully informed of the trap laid to capture the insurgent chief and the result of the expedition has been anxiously awaited for several days.

Several interesting and indeed vital questions are raised by Aguinaldo's capture. If the insurrection now collapses, as it is hoped, it may not be necessary to enlist the full strength of the army provided for in the reorganization bill. There also is the question of the disposition to be made of the insurgent chief. But it is too early yet for the authorities to decide these questions.

There is also much speculation as to the reward which Funston may receive for his work. It is considered not improbable that his reward will be a commission in the regular establishment.

Secretary Long said he presumed Aguinaldo would be held as a prisoner of war.

"What will be done to him?" Mr. Long was asked.

"It is a little early to say," responded the secretary, and then after a pause he added smilingly: "I should say he should be spanked with a shingle."

It was suggested to the secretary that as a prisoner of war who rebelled against the authorities of the United States it might be incumbent under military procedure to deal with Aguinaldo by those rigorous steps usual to warfare. But Secretary Long shook his head and remarked that was hardly the way we are in the habit of doing things. He was more inclined to his first view that the noted prisoner should be "well spanked."

This idea as to the treatment to be accorded Aguinaldo seems to be most generally accepted among the officials and while the suggestion of spanking is used in a figurative sense there is no suggestion in any quarter that he will meet with such rigorous punishment as at times has been administered to the archhead of an insurrection.

Particular in the war department did the capture of Aguinaldo cause discussion among the officials. As to the disposition to be made of the prisoner some army officers expressed the opinion it would prove troublesome. Secretary Root said he remembered the capture of Jefferson Davis, also the arrest of William M. Tweed, both of whom embarrassed the authorities. The secretary desired further advice from Gen. MacArthur before discussing the matter in great detail. He would say little or nothing about the disposition of Aguinaldo further than that he be treated the same as high officers of insurgents who have been taken by Americans in the prosecution of war.

Army officials who have been in the Philippines discussed the military-judicial features of the case. It was pointed out that Aguinaldo could be held as a prisoner of war until the close of the war. Another phase of the question relating to the proclamation and orders of Aguinaldo tending to secure the assassination and massacre of Americans, Europeans and friendly Filipinos without regard to their activity in the prosecution of war on the insurgents was discussed. It was said that in case these proclamations and orders could be proved, Aguinaldo would be subject to trial by a military commission for violation of the rules of war and he could not claim immunity under the ordinary conduct of war.

### Heir to Vast Property.

Rochester, March 28.—Mrs. Emma Robinson, a widow with four children, living in this city, has received from a Washington lawyer the information that her name appears among the list of heirs to a vast property situated in central Pennsylvania.

## TOO MUCH FOR RUSSIA.

Japan's Navy Could Wipe Out Russia's  
Fleet in Chinese Waters.

Washington, March 28.—If the Japanese intend to rely upon their available sea power in a contest with Russia, Japan is not only equal but superior in force to Russia in Asiatic waters. The Russian fleet now stationed in Asia and available for service against Japan numbers 31 vessels exclusive of torpedo boats with an aggregate tonnage of 130,940. The Japanese fleet exclusive of torpedo boats consists of 52 vessels, of 207,903 tons. Not only does Japan enjoy a superiority of tonnage to the extent of nearly 77,000 tons, but she has some ships of very great power and the promise of great efficiency, and she would enter a struggle with a prestige that would at least worry the people at St. Petersburg.

Russia's fleet available at present for service against Japan includes some large ships, but her battleships are smaller and older than those of Japan. Japan's list includes about all her navy, the fleet being stationed at home for the most part, the cruises of vessels being chiefly for practice and in waters with which it is desired to acquire great familiarity. Besides being much heavier than the Russian battleships, those of Japan are of later construction and are much more heavily armed. A comparison of the weight of projectiles to be thrown by the respective fleets, would, it is said, show great superiority in the fleet of Japan.

As to the outcome of a naval conflict between Russia and Japan naval officers hesitate to predict. Russia has had no recent naval experience worth mentioning. Japan's war with China proved her to be more superior than China and a conflict with Russia would prove nothing of the fighting ability of the two nations. While Japan's prestige is great and would nerve the navy to a desperate conflict with Russia, naval officers say that Japan cannot always expect to win, and that judgment must be deferred until it is seen how she has been subjected to a few drubbings.

### LOOKS SERIOUS.

An Uncensored Dispatch Says Students  
and Labor Party Combine.

New York, March 28.—The World publishes the following dispatch from St. Petersburg, dated March 25, and mailed to Berlin in order to escape the press censor, which says:

"The most distinguishing and gravest feature in the present disturbances in Russia is the evidence of the organized combination for the first time between students and workingmen of an obstinately revolutionary character. The government has driven the students into the arms of the labor party."

### Ten Students Reported Dead.

St. Petersburg, March 28.—A story comes from hospitals to the effect that 10 students have already died from injuries received in the recent riots, presumably as a result of wounds inflicted by leaden bullets which the Cossacks are alleged to have put on their whips. Students themselves report only two deaths, while mortality statistics did not give a single death last week except from disease.

### PHILIPPINE ARMY.

Fifty Thousand Men Will Be Maintained  
until Peace Reigns.

Washington, March 28.—The present plans of the war department contemplate the maintenance of an army of 50,000 men in the Philippines until order has been established under the proposed new civil government and the garrisons can be safely reduced to a peace footing.

There are now about 65,000 troops in the Philippines and China and the original plan was to maintain an army of 60,000 men in the Philippines until a stable government has been established, replacing the volunteers, numbering about 25,000, with regulars to an extent sufficient to keep up all existing garrisons throughout the archipelago, but it has been found impracticable to do so under existing conditions within the short time intervening before July 1, when the entire volunteer army must be disbanded.

The failure of the plan is due to the lack of officers in this country to organize the new arrangements authorized by congress and not so much to the difficulty of recruiting.

### Geological Survey of Cuba.

Washington, March 28.—Three expert geologists from the United States' survey has been detailed to make geological and mineral reconnaissance of the island of Cuba. They are Willard Hayes, T. Wayland Vaughan and A. C. Spencer. Expenses will be met by the Cuban government.

### Promised Four Years More.

Little Rock, March 28.—General Powell Clayton, ambassador to Mexico, who is here attending a meeting of the Republican state central committee, announces that he has promised to serve four years more as representative of the United States in Mexico.

### Anti-Gambling Bill.

Little Rock, March 28.—Governor Davis has signed the drastic anti-gambling bill passed by the legislature and it went into immediate effect. The chief of police of Little Rock issued orders at once for every gambling house in this city to close.

### Plague Raging in India.

Calcutta, March 28.—Eight thousand people died of the plague last week in Bengal alone, including Calcutta. Whole towns are being deserted.
